## Education

---

- 2006** : Ecole Normale Supérieure, Paris : MPRI (Parisian Master of Research in Computer Science). Master's Degree, first year ( M1 ) in Fundamental Computer Science. Followed courses (inter alia) :  
Abstract interpretation : application to verification and static analysis (P. Cousot, R. Cousot, B. Blanchet, L. Mauborgne, D. Monniaux, M. Martel)  
Lambda-calculi and domains (P.-L. Curien)  
Type theory (Gilles Dowek, Benjamin Werner, Alexandre Miquel)  
Proof assistant (Christine Paulin, Hugo Herbelin, Jean-Christophe Filliatre)
- 2006** : (July / August) Research internship at INRIA (French National Institute for Research in Computer Science and Control), Nancy (France) : Connection-based method for proofs in logic of bunched implications (BI) under the direction of Didier Galmiche.
- 2005–2006** : Ecole Normale Supérieure, Paris : FIMFA ( magistère of Fundamental and Applied Mathematics and Computer Science), first year. Bachelor's Degree ( Licence L3 ) in Mathematics, with distinction.
- 2005** : Entering Ecole Normale Supérieure, Paris, Mathematics Physics and Computer Science exam (MPI group).
- 2002–2005** : Classes préparatoires (intensive scientific courses preparing towards highly competitive exams allowing entrance to the Grandes Ecoles ), Lycée Joffre, Montpellier (France).
- 2002** : Scientific Baccalaureate with distinction, Lycée Jean Monnet, Montpellier (France).

---

## Languages

---

- French (mother tongue).
- English : written, read, spoken.
